

Lovibond® Colour Measurement Tintometer® Group

叶绿素 A (Fx)

货号: 169530

Conformance filters are assigned a nominal value and the company always endeavours to match this value as closely as possible. On occasion, because of the unique manner of the glass making process, it may not be possible to match the requested values exactly. The values achieved and the performance tolerances expected will, of course, always be reported.

叶绿素 A (Fx)

A glass conformance filter to check the Model Fx range of instruments accuracy in measuring Chlorophyll A.

Technical Data

Glass Standard Values	0.19 ppm @ 10mm光程
Filters	1

标准配置文本

- 0.19 ppm filter
- Certificate of Conformity
