SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product name: Potassium Hydroxide Solution 45%
Catalog number: 424089, 2418634

1.2 Relevant identified uses of the substance or mixture and uses advised against
Application of the substance / the preparation: Reagent for water analysis

1.3 Details of the supplier of the safety data sheet
Supplier:
Tintometer GmbH
Schleefstraße 8-12
44287 Dortmund
Made in Germany
www.lovibond.com

The Tintometer Limited
Lovibond® House
Sun Rise Way
Amesbury
Wiltshire SP4 7GR
United Kingdom

Informing department:
e-mail: sds@lovibond.com
Product Safety Department

1.4 Emergency telephone number:
+44 1235 239670
Languages: English

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008

GHS05 corrosion
Met. Corr. 1 H290 May be corrosive to metals.
Skin Corr. 1A H314 Causes severe skin burns and eye damage.
Eye Dam. 1 H318 Causes serious eye damage.

GHS07
Acute Tox. 4 H302 Harmful if swallowed.

2.2 Label elements
Labelling according to Regulation (EC) No 1272/2008
The product is classified and labelled according to the GB CLP regulation.

Hazard pictograms
GHS05  GHS07
Product name: Potassium Hydroxide Solution 45%

· Signal word Danger
· Hazard-determining components of labelling:
  potassium hydroxide
· Hazard statements
  H290 May be corrosive to metals.
  H302 Harmful if swallowed.
  H314 Causes severe skin burns and eye damage.
· Precautionary statements
  P280 Wear protective gloves/pro tective clothing/eye protection.
  P301+P330+P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
  P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.
  P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
  P310 Immediately call a doctor.
  P390 Absorb spillage to prevent material damage.
· 2.3 Other hazards
  Acid burns have to treated immediately, as it may otherwise cause badly curing wounds.
· Results of PBT and vPvB assessment
  This mixture does not contain any substances that are assessed to be persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB), according to the criteria given in Annex XIII of Regulation (EC) No. 1907/2006.
· Determination of endocrine-disrupting properties
  The product does not contain substances with endocrine disrupting properties.

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures
  · Description: aqueous solution
· Dangerous components:
  | CAS: T310-58-3 | EINECS: 215-181-3 | Index No: 019-002-00-8 | Reg.nr.: 01-2119487136-33-XXXX | potassium hydroxide | 40–50% |
  | Met. Corr. 1, H290; Skin Corr. 1A, H314; Acute Tox. 4, H502 |
  | Specific concentration limits: Skin Corr. 1A; H314; C ≥ 5 % |
  | Skin Corr. 1B; H314: 2 % ≤ C < 5 % |
  | Skin Irrit. 2; H315: 0.5 % ≤ C < 2 % |
  | Eye Irrit. 2; H319: 0.5 % ≤ C < 2 % |
· Additional information
  For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

· 4.1 Description of first aid measures
  · General information
    Personal protection for the First Aider!
    Instantly remove any clothing soiled by the product.
  · After inhalation
    Supply fresh air; consult doctor in case of symptoms.
  · After skin contact
    Instantly wash with polyethylene glycol 400.
    Instantly rinse with water.
    Immediate medical treatment necessary. Failure to treat burns can prevent wounds from healing.
  · After eye contact
    Rinse opened eye for several minutes (at least 15 min) under running water.
    Call a doctor immediately.
  · After swallowing
    Rinse out mouth and then drink 1-2 glasses of water.
    Do not induce vomiting; instantly call for medical help.
· 4.2 Most important symptoms and effects, both acute and delayed:
  · strong caustic effect:
    after inhalation: coughing
    breathing difficulty
    after swallowing: vomiting
  · Danger
    Danger of gastric perforation.

(Contd. on page 3)
**SECTION 5: Firefighting measures**

- **5.1 Extinguishing media**
  - Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- **5.2 Special hazards arising from the substance or mixture**
  - The product is not combustible.
  - Formation of toxic gases is possible during heating or in case of fire.
- **5.3 Advice for firefighters**
  - Wear self-contained breathing apparatus.
  - Wear full protective suit.
  - Collect contaminated fire fighting water separately. It must not enter drains.
  - Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.
- **Additional information**
  - Ambient fire may liberate hazardous vapours.

**SECTION 6: Accidental release measures**

- **6.1 Personal precautions, protective equipment and emergency procedures**
  - Advice for non-emergency personnel:
    - Wear protective equipment. Keep unprotected persons away.
    - Avoid substance contact.
    - Ensure adequate ventilation.
  - Advice for emergency responders: Protective equipment: see section 8
- **6.2 Environmental precautions:**
  - Do not allow product to reach sewage system or water bodies.
- **6.3 Methods and material for containment and cleaning up:**
  - Collect contaminated fire fighting water separately. It must not enter drains.
  - Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.
- **6.4 Reference to other sections**
  - See Section 8 for information on personal protection equipment.
  - See Section 13 for information on disposal.

**SECTION 7: Handling and storage**

- **7.1 Precautions for safe handling**
  - Open and handle container with care.
  - Ensure good ventilation/exhaustion at the workplace.
  - Prevent formation of aerosols.
- **Hygiene measures:**
  - Do not inhale gases / fumes / aerosols.
  - Do not get in eyes, on skin, or on clothing.
  - Take off immediately all contaminated clothing.
  - Wash hands during breaks and at the end of the work.
  - Do not eat, drink or smoke when using this product.
- **7.2 Conditions for safe storage, including any incompatibilities**
  - Requirements to be met by storerooms and containers: Store in cool location.
  - Information about storage in one common storage facility: Store away from metals.
- **Further information about storage conditions:**
  - Protect from heat and direct sunlight.
  - Protect from the effects of light.
  - Protect from humidity and keep away from water.
- **Recommended storage temperature:** 20°C +/- 5°C
SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Components with limit values that require monitoring at the workplace:

<table>
<thead>
<tr>
<th>CAS: 1310-58-3 potassium hydroxide</th>
</tr>
</thead>
<tbody>
<tr>
<td>WEL (Great Britain)</td>
</tr>
</tbody>
</table>

Regulatory information WEL (Great Britain): EH40/2020

DNELs

Derived No Effect Level (DNEL)

<table>
<thead>
<tr>
<th>CAS: 1310-58-3 potassium hydroxide</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inhalative DNEL 1 mg/m³ (Worker / acute / local effects) (Merck)</td>
</tr>
<tr>
<td>1 mg/m³ (Consumer / long-term / local effects) (Merck)</td>
</tr>
</tbody>
</table>

Recommended monitoring procedures:

Methods for measurement of the workplace atmosphere have to correspond to the requirements of norms DIN EN 482 and DIN EN 689.

Additional information: The lists that were valid during the compilation were used as basis.

8.2 Exposure controls

Engineering measures:

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. See item 7.

Individual protection measures, such as personal protective equipment

Protective clothing should be selected specifically for the workplace, depending on concentration and quantity of the hazardous substances handled.

Eye/face protection Tightly sealed safety glasses.

Hand protection

Alkaline resistant gloves
Preventive skin protection by use of skin-protecting agents is recommended.
After use of gloves apply skin-cleaning agents and skin cosmetics.

Material of gloves

nitrile rubber, NBR
Recommended thickness of the material: ≥ 0.11 mm

Penetration time of glove material

Value for the permeation: Level = 1 ( < 10 min )

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

Other skin protection (body protection): Alkaline resistant protective clothing

Breathing equipment: Use breathing protection against the effects of fumes/dust/aerosol.

Recommended filter device for short term use: Filter P2

Environmental exposure controls Do not allow product to reach sewage system or water bodies.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state: Fluid
Form: Solution
Colour: Colourless
Odour: Odourless
Odour threshold: Not applicable.
Melting point/Freezing point: Not determined.
Boiling point or initial boiling point and boiling range Not determined.
Flammability The product is not combustible.
Explosive properties: Product is not explosive.
Product name: Potassium Hydroxide Solution 45%

### 55.1.8

- **Lower and upper explosion limit**
  - **Lower:** Not applicable.
  - **Upper:** Not applicable.
- **Flash point:** Not applicable.
- **Ignition temperature:** Not applicable.
- **Decomposition temperature:** Not determined.
- **pH at 20°C:** >13
- **Kinematic viscosity:** Not determined.
- **Solubility**
  - **Water:** Fully miscible
  - **Partition coefficient n-octanol/water (log value):** Not applicable (mixture).
- **Vapour pressure:** Not determined.
- **Density and/or relative density**
  - **Density at 20°C:** 1.47 g/cm³
- **Relative density:** Not determined.
- **Relative gas density:** Not determined.
- **Particle characteristics:** Not applicable (liquid).

### 9.2 Other information

- **Information with regard to physical hazard classes**
  - **Corrosive to metals**
    - May be corrosive to metals.
  - **Metals that are corroded by the substance or mixture**
    - Information on incompatible materials can be found in Sections 7 and 10.
- **Other safety characteristics**
  - **Oxidising properties:** none
  - **Additional information**
    - **Solids content:** > 40 %
    - **Organic solvents:** 0.0 %
    - **Water:** < 50 %

### SECTION 10: Stability and reactivity

- **10.1 Reactivity** see section 10.3
- **10.2 Chemical stability** Stable at ambient temperature (room temperature).
- **10.3 Possibility of hazardous reactions**
  - Reacts with metals forming hydrogen (Danger of explosion in case of large amounts!)
  - Corrosive action on metals
  - Reacts with halogenated compounds
  - Reacts with strong acids
  - Reacts with alkaline earth metals
- **10.4 Conditions to avoid** No further relevant information available.
- **10.5 Incompatible materials:** No further relevant information available.
- **10.6 Hazardous decomposition products:** In case of fire: see section 5.

### SECTION 11: Toxicological information

- **11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008**
  - **Acute toxicity**
    - Classification according to calculation procedure:
    - Harmful if swallowed.
  - **Acute toxicity estimate (ATE\text{mix}) - Calculation method:**
    - Oral (CLP ATE\text{mix}) \(740\) mg/kg ( )
  - **LD/LC50 values that are relevant for classification:**
    - **CAS:** 1310-58-3 potassium hydroxide
    - **Oral LD50** \(333\) mg/kg (rat) (OECD 425) (ECHA)
  - **Skin corrosion/irritation** Causes severe skin burns and eye damage.
Product name: Potassium Hydroxide Solution 45%

- **Serious eye damage/irritation**
  Causes serious eye damage.
  Risk of blindness!

### Information on components:

**CAS: 1310-58-3 potassium hydroxide**

- Irritation of skin: OECD 404 (rabbit: burns)
- Irritation of eyes: OECD 405 (rabbit: burns)

- **Respiratory or skin sensitisation** Based on available data, the classification criteria are not met.

### Information on components:

**CAS: 1310-58-3 potassium hydroxide**

- Sensitisation: OECD 406 (guinea pig: negative)

- **Germ cell mutagenicity** Based on available data, the classification criteria are not met.
- **Carcinogenicity** Based on available data, the classification criteria are not met.
- **Reproductive toxicity** Based on available data, the classification criteria are not met.

### Information on components:

**CAS: 1310-58-3 potassium hydroxide**

- OECD 414: Teratogenicity testing
- OECD 473: Mutagenicity testing
- OECD 471, 474, 476, 487: Germ cell mutagenicity testing

- **STOT (specific target organ toxicity) -single exposure** Based on available data, the classification criteria are not met.
- **STOT (specific target organ toxicity) -repeated exposure** Based on available data, the classification criteria are not met.
- **Aspiration hazard** Based on available data, the classification criteria are not met.

### Additional toxicological information:

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

**CAS: 1310-58-3 potassium hydroxide**

- (source: GESTIS)
  Main toxic effects:
  - Acute: severe irritation and caustic effects on all contacted mucous membranes and skin; risk of irreversible eye damage
  - Chronic: irritant effect on eyes, respiratory tract and skin

  Further information:
  Regardless of the route of exposure, the focus is on the local effect. The type and duration of exposure, concentration, pH value, dose and the time at which treatment measures are applied are essential for the extent of the damage. The greatest hazard is when the solid or solution comes into direct contact with the eye. Even highly diluted solutions can still cause severe damage. Rapidly progressive damage also occurs on the skin, even when diluted solutions act on it. Airborne exposure to KOH causes irritation of the respiratory tract (especially the nose and throat), eyes and skin. At high concentrations, damage to the lower airways and lungs cannot be ruled out.

### 11.2 Information on other hazards

- **Endocrine disrupting properties** The product does not contain substances with endocrine disrupting properties.

### Other information

According to the information available to us, the chemical, physical and toxicological properties of the substances mentioned in Chapter 3 have not been thoroughly investigated.

### SECTION 12: Ecological information

- **12.1 Toxicity**

  **Aquatic toxicity:**

  **CAS: 1310-58-3 potassium hydroxide**

  - LC50: 80 mg/l/96h (mosquitofish)
  - (IUCLID)

- **12.2 Persistence and degradability**

  - **12.3 Bioaccumulative potential** No further relevant information available.
  - **12.4 Mobility in soil** No further relevant information available.
12.5 Results of PBT and vPvB assessment
This mixture does not contain any substances that are assessed to be persistent, bioaccumulative and toxic (PBT) or very persistent and very bioaccumulative (vPvB), according to the criteria given in Annex XIII of Regulation (EC) No. 1907/2006.

12.6 Endocrine disrupting properties
The product does not contain substances with endocrine disrupting properties.

12.7 Other adverse effects
Harmful effect due to pH shift.
Forms corrosive mixtures with water even if diluted.
Avoid transfer into the environment.

Water hazard:
Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.
Must not reach sewage water or drainage ditch undiluted or unneutralised.

SECTION 13: Disposal considerations

13.1 Waste treatment methods
Recommendation
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
Hand over to disposers of hazardous waste.

European waste catalogue
16 05 07* discarded inorganic chemicals consisting of or containing hazardous substances

Uncleaned packagings:
Recommendation: Disposal must be made according to official regulations.
Recommended cleaning agent: Water, if necessary with cleaning agent.

SECTION 14: Transport information

14.1 UN number or ID number
ADR, IMDG, IATA UN1814

14.2 UN proper shipping name
ADR 1814 POTASSIUM HYDROXIDE SOLUTION
IMDG, IATA POTASSIUM HYDROXIDE SOLUTION

14.3 Transport hazard class(es)
ADR
Class 8 (C5) Corrosive substances.
Label 8

IMDG, IATA
Class 8 Corrosive substances.
Label 8

14.4 Packing group
ADR, IMDG, IATA II

14.5 Environmental hazards:
Not applicable.

14.6 Special precautions for user
Warning: Corrosive substances.
Kemler Number: 80
EMS Number: F-A,S-B
Segregation groups (SGG18) Alkalis
Stowage Category A
SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- Regulation (EU) 2019/1148 on the marketing and use of explosives precursors not regulated

- Regulation (EU) No 649/2012 concerning the export and import of hazardous chemicals (PIC)
  None of the ingredients is listed.

- Regulation (EC) No 1334/2000 setting up a Community regime for the control of exports of dual-use items and technology:
  None of the ingredients is listed.

- Regulation (EC) No 273/2004 on drug precursors
  None of the ingredients is listed.

- Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors
  None of the ingredients is listed.

- Regulation (EC) No 1005/2009 on substances that deplete the ozone layer:
  None of the ingredients is listed.

- REGULATION (EU) 2019/1021 on persistent organic pollutants (POP)
  None of the ingredients is listed.

- LIST OF SUBSTANCES SUBJECT TO AUTHORIZATION (ANNEX XIV)
  None of the ingredients is listed.

- Substances of very high concern (SVHC) according to REACH, Article 57
  This product does not contain any substances of very high concern above the legal concentration limit of ≥ 0.1% (w / w).

- Directive 2012/18/EU (SEVESO III):
  Named dangerous substances - ANNEX I None of the ingredients is listed.

- REGULATION (EC) No 1907/2006 ANNEX XVII
  Conditions of restriction: 3

- Information about limitation of use: Employment restrictions concerning young persons must be observed (94/33/EC).

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

These data are based on our present knowledge. However, they shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- Training hints Provide adequate information, instruction and training for operators.
Relevant phrases
H290 May be corrosive to metals.
H302 Harmful if swallowed.
H314 Causes severe skin burns and eye damage.

Abbreviations and acronyms:
OECD: Organisation for Economic Co-operation and Development
STOT: specific target organ toxicity
SE: single exposure
RE: repeated exposure
EC50: half maximal effective concentration
IC50: half maximal inhibitory concentration
NOEL or NOEC: No Observed Effect Level or Concentration
ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road)
RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail)
IMDG: International Maritime Code for Dangerous Goods
