Lovibond[®] Water Testing

Tintometer® Group

Safety Data Sheet

acc. to OSHA HCS (HazCom 2012)

Printing date 04/03/2020

1 Identification

- · Product identifier
- · Trade name: Nickel-52
- · Catalogue number: 424402, 424402-0
- · Application of the substance / the mixture: Reagent for water analysis
- Manufacturer/Supplier: Tintometer Inc. 6456 Parkland Drive Sarasota, FL 34243 USA phone: (941) 756-6410 fax: (941) 727-9654 www.lovibond.us Made in Germany
- · Emergency telephone number: + 1 866 928 0789 (English, French, Spanish)

2 Hazard(s) identification

· Classification of the substance or mixture

GHS05 Corrosion

Met. Corr.1 H290 May be corrosive to metals.

Skin Corr. 1A H314 Causes severe skin burns and eye damage.

Eye Dam. 1 H318 Causes serious eye damage.

· Label elements

- · GHS label elements The product is classified and labeled according to the Hazard Communication Standard (HCS).
- · Hazard pictograms

- · Signal word Danger
- · Hazard-determining components of labeling:
- sodium hydroxide
- Hazard statements
- H290 May be corrosive to metals.
- H314 Causes severe skin burns and eye damage.

Precautionary statements

- P260 Do not breathe mist/vapours/spray.
- P280 Wear protective gloves/protective clothing/eye protection.
- P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.
- P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310 Immediately call a doctor.
- P390 Absorb spillage to prevent material damage.

 \cdot Other hazards Acid burns have to treated immediately, as it may otherwise cause badly curing wounds.

3 Composition/information on ingredients

- · Chemical characterization: Mixtures
- · **Description:** aqueous solution

Printing date 04/03/2020

Trade name: Nickel-52

Reviewed on 04/03/2020

| Composition and Information on Ingredient Percent ranges are used due to the confidentia | s: | . of page 1) |
|--------------------------------------------------------------------------------------------------------|----------------------------------------------|--------------|
| CAS: 1310-73-2 sodium hydroxide EINECS: 215-185-5 Index number: 011-002-00-6 RTECS: WB4900000 | e 🔶 Met. Corr.1, H290; Skin Corr. 1A, H314 1 | 10–20% |
| CAS: 95-45-4 Dimethylglyoxime EINECS: 202-420-1 RTECS: EK 2975000 | e 🚸 Flam. Sol. 2, H228 | ≤2.5% |

Additional information: For the wording of the listed hazard phrases refer to section 16.

4 First-aid measures

- · Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- · After inhalation: Supply fresh air. Call a doctor.
- · After skin contact:
- Immediately wash with polyethylene glycol 400. Immediately rinse with plenty of water.
- Immediate medical treatment necessary. Failure to treat burns can prevent wounds from healing.
- · After eye contact:
- Rinse opened eye for several minutes (at least 15 min) under running water.
- Call a doctor immediately.
- · After swallowing:
- Rinse out mouth and then drink 1-2 glasses of water.
- Do not induce vomiting; immediately call for medical help.
- \cdot Most important symptoms and effects, both acute and delayed
- burns
- after inhalation: mucosal irritations, cough, breathing difficulty
- after swallowing:
- strong caustic effect
- pain
- Danger: Danger of gastric perforation.
- Indication of any immediate medical attention and special treatment needed: If swallowed or in case of vomiting, danger of entering the lungs.
- Later observation for pneumonia and pulmonary edema.

5 Fire-fighting measures

- · Extinguishing media
- · Suitable extinguishing agents: Use fire fighting measures that suit the environment.
- \cdot Special hazards arising from the substance or mixture
- The product is not combustible.
- Formation of toxic gases is possible during heating or in case of fire.
- Advice for firefighters
- Protective equipment:
- Wear self-contained respiratory protective device.
- Wear fully protective suit.
- · Additional information
- Collect contaminated fire fighting water separately. It must not enter the sewage system.
- Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.
 - Ambient fire may liberate hazardous vapours.

6 Accidental release measures

- \cdot Personal precautions, protective equipment and emergency procedures
- Advice for non-emergency personnel:
- Wear protective equipment. Keep unprotected persons away. Avoid substance contact.

Ensure adequate ventilation

Printing date 04/03/2020

Trade name: Nickel-52

Reviewed on 04/03/2020

(Contd. of page 2)

Use respiratory protective device against the effects of fume/dust/aerosol.

- Advice for emergency responders: Protective equipment: see section 8
- Environmental precautions: Do not allow product to reach sewage system or any water course.
- \cdot Methods and material for containment and cleaning up:

Ensure adequate ventilation.

Use neutralizing agent.

Absorb with liquid-binding material (sand, diatomite, universal binders).

Dispose contaminated material as waste according to item 13.

Reference to other sections

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

- · Precautions for safe handling
- · Advice on safe handling: No special precautions are necessary if used correctly.
- · Hygiene measures:
- Do not inhale gases / fumes / aerosols.
- Do not get in eyes, on skin, or on clothing.
- Take off immediately all contaminated clothing.
- Wash hands before breaks and at the end of work.
- Do not eat, drink or smoke when using this product.
- · Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility:
- Store away from metals.
- Do not store together with acids.
- Further information about storage conditions: Protect from heat and direct sunlight. Protect from exposure to the light. Protect from humidity and water.
- Recommended storage temperature: 20°C +/- 5°C (approx. 68°F)
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- · Control parameters
- · Components with limit values that require monitoring at the workplace:
- The following constituent is the only constituent of the product which has a PEL, TLV or other recommended exposure limit.

CAS: 1310-73-2 sodium hydroxide

| PEL (USA) | Long-term value: 2 mg/m ³ |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| REL (USA) | Ceiling limit value: 2 mg/m ³ |
| TLV (USA) | Ceiling limit value: 2 mg/m ³ |
| EL (Canada) | Ceiling limit value: 2 mg/m ³ |
| EV (Canada) | Long-term value: 2 mg/m ³ Ceiling limit value: 2 mg/m ³ |

· Additional information: The lists that were valid during the creation were used as basis.

· Engineering measures:

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment. See item 7.

· Personal protective equipment:

Protective clothing should be selected specifically for the workplace, depending on concentration and quantity of the hazardous substances handled.

· Breathing equipment: Use respiratory protective device against the effects of fume/dust/aerosol.

- Recommended filter device for short term use: Filter P2
- · Protection of hands:
- Alkaline resistant gloves

Preventive skin protection by use of skin-protecting agents is recommended.

After use of gloves apply skin-cleaning agents and skin cosmetics.

Printing date 04/03/2020

Reviewed on 04/03/2020

Trade name: Nickel-52

- \cdot Material of gloves Nitrile rubber, NBR Recommended thickness of the material: ≥ 0.35 mm
- **Penetration time of glove material** Value for the permeation: Level \leq 1 (10 min) The exact break through time has to be found out by the manufacturer of the prote
- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye protection: Tightly sealed goggles • Body protection: Alkaline resistant protective clothing
- · Limitation and supervision of exposure into the environment:
- Do not allow product to reach sewage system or any water course.

9 Physical and chemical properties

| · Information on basic physical and chemical properties | |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Appearance: Form / Physical state: Color: | Fluid Colorless |
| · Odor: · Odor threshold: | Odorless Not applicable. |
| · pH-value at 20°C (68°F): | 12.5 Strongly alkaline |
| Melting point/freezing point: Initial boiling point and boiling range: | Not determined. Not determined. |
| · Flash point: | Not applicable. |
| · Flammability (solid, gas): | Not applicable. |
| · Decomposition temperature: | Not determined. |
| · Auto-ignition temperature: | Product is not self-igniting. |
| Danger of explosion: Flammability or explosive limits: | Product does not present an explosion hazard. |
| Lower: Upper: | Not applicable. Not applicable. |
| · Oxidizing properties: | none |
| Vapor Pressure: Density at 20°C (68°F): Relative density: Vapor density: Evaporation rate: | Not determined. 1.14 g/cm ³ (9.51 lbs/gal) Not determined. Not determined. Not determined. |
| · Solubility(ies) Water: | Fully miscible. |
| · Partition coefficient (n-octanol/water): Not determined. | |
| · Viscosity: | Not determined. |
| Solvent content: Organic solvents: Water: Solids content: | 0.0 % > 85 % < 15 % |
| · Other information | No further relevant information available. |

10 Stability and reactivity

- · Reactivity see section "Possibility of hazardous reactions"
- · Chemical stability Stable at ambient temperature (room temperature).
- · Possibility of hazardous reactions
- Corrosive action on metals.

(Contd. of page 3)

Printing date 04/03/2020

Trade name: Nickel-52

| Reacts with metals forming hydrogen (Danger of explosion!) | (Contd. of page 4) |
|-------------------------------------------------------------------------------------|--------------------|
| Corrodes aluminium and zinc. | |
| Exothermic reaction with acids. | |
| Conditions to avoid To avoid thermal decomposition do not overheat. | |
| · Incompatible materials: | |
| metals light metals | |
| aluminum | |
| zinc | |
| organic substances | |
| Hazardous decomposition products: see section 5 | |
| | |
| | |
| Toxicological information | |
| Information on toxicological effects | |
| • Acute toxicity: Based on available data, the classification criteria are not met. | |
| · LD/LC50 values that are relevant for classification: | |
| CAS: 1310-73-2 sodium hydroxide | |
| Oral LDLo 500 mg/kg (rabbit) | |
| (IUCLID) | |
| CAS: 95-45-4 Dimethylglyoxime | |
| LDLo 250 mg/kg (rat) | |
| (RTECS) | |
| Primary irritant effect: | |
| on the skin: Causes severe skin burns. | |
| · on the eye: | |
| Causes serious eye damage. | |
| Risk of blindness! | |
| • Sensitization: Based on available data, the classification criteria are not met. | |
| Information on components: | |
| CAS: 1310-73-2 sodium hydroxide | |
| Sensitization Patch test (human) (negative) | |
| · Carcinogenic categories | |
| · IARC (International Agency for Research on Cancer) | |
| None of the ingredients is listed. | |
| · NTP (National Toxicology Program) | |

· NTP (National Toxicology Program)

None of the ingredients is listed.

· OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

· Other information: see section 8 / 15

· Synergistic Products: None

• CMR effects (carcinogenity, mutagenicity and toxicity for reproduction): The following statements refer to the mixture:

- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- · Carcinogenicity Based on available data, the classification criteria are not met.
- · Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT (specific target organ toxicity) -single exposure Based on available data, the classification criteria are not met.

• STOT (specific target organ toxicity) -repeated exposure Based on available data, the classification criteria are not met.

· Aspiration hazard Based on available data, the classification criteria are not met.

· Additional toxicological information:

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach. US

12 Ecological information

· Toxicity

| · Aquatic toxicity: | |
|---------------------------------|--|
| CAS: 1310-73-2 sodium hydroxide | |

LC50 40.4 mg/l/48h (Ceriodaphnia sp.) (ECHA)

· Bacterial toxicity:

- CAS: 1310-73-2 sodium hydroxide
- EC50 22 mg/l (Photobacterium phosphoreum) (15 min)

• Persistence and degradability No further relevant information available.

- · Bioaccumulative potential
 - Pow = n-octanol/wasser partition coefficient
- log Pow < 1 = Does not accumulate in organisms.
- CAS: 95-45-4 Dimethylglyoxime
- log Pow -0.29 (.) (calculated)
- · Mobility in soil No further relevant information available.
- · Other adverse effects
- Harmful effect due to pH shift.

Forms corrosive mixtures with water even if diluted. Neutralization possible in waste water treatment plants.

Avoid transfer into the environment.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Hand over to hazardous waste disposers.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agent: Water, if necessary with cleansing agents.

| · UN-Number | | |
