# Tintometer<sup>®</sup> Group Water Testing

Page 1/10

# Safety data sheet according to 1907/2006/EC, Article 31

Printing date 13.11.2023

Version number 5 (replaces version 4)

Revision: 13.11.2023

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

- · 1.1 Product identifier
- · Product name: Polyacrylate Solvent A3
- · Chemical Identification: chloroform / trichloromethane
- · Catalog number: 56Z003498, 56L0034, 56L003430, 56L003450, 56L003492, 56U003430, 56U003450, 56U003492, SDT087
- · CAS No.:
- 67-66-3
- $\cdot$  1.2 Relevant identified uses of the substance or mixture and uses advised against
- · Application of the substance / the preparation: Reagent for water analysis
- · 1.3 Details of the supplier of the safety data sheet

• Supplier: Tintometer GmbH Schleefstraße 8-12 44287 Dortmund Made in Germany www.lovibond.com

The Tintometer Limited Lovibond<sup>®</sup>House Sun Rise Way Amesbury Wiltshire SP4 7GR United Kingdom

- Informing department: e-mail: sds@lovibond.com Product Safety Department
- **1.4 Emergency telephone number:** +44 1235 239670 Languages: English

## **SECTION 2: Hazards identification**

#### · 2.1 Classification of the substance or mixture

#### · Classification according to Regulation (EC) No 1272/2008

GHS06 skull and crossbones

Acute Tox. 3 H331 Toxic if inhaled.

GHS08 health hazard

Carc. 2H351Suspected of causing cancer.Repr. 2H361dSuspected of damaging the unborn child.STOT RE 1H372Causes damage to the kidneys and the liver through prolonged or repeated exposure.

Acute Tox. 4 H302 Harmful if swallowed. Skin Irrit. 2 H315 Causes skin irritation. phone: +49 (0)231 94510-0 e-mail: sales@lovibond.com

phone : +44 1980 664800 e-mail: SDS@lovibond.uk

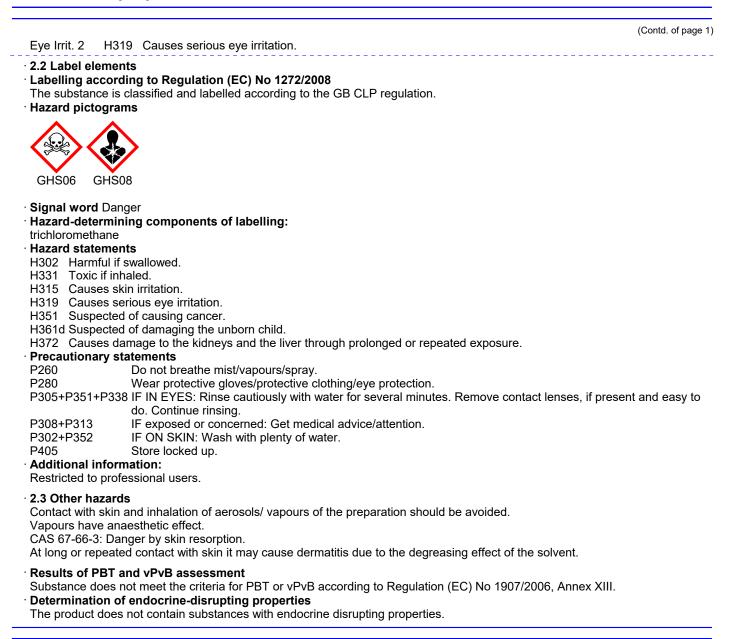

Revision: 13.11.2023

# Safety data sheet according to 1907/2006/EC, Article 31

Version number 5 (replaces version 4)

#### Product name: Polyacrylate Solvent A3

Printing date 13.11.2023

#### **SECTION 3: Composition/information on ingredients**

- · 3.1 Substances
- · CAS No. Designation:
- CAS: 67-66-3 trichloromethane
- · Identification number(s):
- · EC No: 200-663-8
- · Index No: 602-006-00-4
- · Acute toxicity estimate (ATE) values LC50/4h inhalative: 3 mg/l
- · Impurities and stabilising additives: CAS 513-35-9:  $\geq 0.001\%$   $\leq 0.015\%$

## **SECTION 4: First aid measures**

- · 4.1 Description of first aid measures
- · General information
- Personal protection for the First Aider!
- Instantly remove any clothing soiled by the product.
- · After inhalation

Version number 5 (replaces version 4)

Revision: 13.11.2023

## Product name: Polyacrylate Solvent A3

Printing date 13.11.2023

In case of irregular breathing or respiratory arrest provide artificial respiration. • After skin contact Instantly rinse with water. Seek medical treatment. • After eye contact Rinse opened eye for several minutes (at least 15 min) under running water. Then consult doct • After swallowing	tor.
Rinse out mouth and then drink 1-2 glasses of water.	
Do not induce vomiting; instantly call for medical help.	
<ul> <li>4.2 Most important symptoms and effects, both acute and delayed: irritations</li> </ul>	
Drying-out effect resulting in rough and chapped skin.	
absorption	
after inhalation:	
dizziness	
drowsiness	
headache	
fatigue	
cardiovascular disorders	
unconsciousness	
respiratory paralysis	
after swallowing: pain	
vomiting	
narcotic conditions	
· Danger	
Danger of impaired breathing.	
Danger of disturbed cardiac rhythm.	
Danger of pulmonary oedema.	
Condition may deteriorate with alcohol consumption.	
• 4.3 Indication of any immediate medical attention and special treatment needed: No further relevant information	ation available.

## **SECTION 5: Firefighting measures**

· 5.1 Extinguishing media

- · Suitable extinguishing agents Use fire fighting measures that suit the environment.
- 5.2 Special hazards arising from the substance or mixture

The product is not combustible.

Formation of toxic gases is possible during heating or in case of fire.

Can be released in case of fire:

Phosgene gas

Hydrogen chloride (HCI)

Carbon monoxide (CO) and carbon dioxide (CO<sub>2</sub>)

- 5.3 Advice for firefighters
- Protective equipment:

Wear self-contained breathing apparatus.

Wear full protective suit.

Additional information

Collect contaminated fire fighting water separately. It must not enter drains. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations. Ambient fire may liberate hazardous vapours.

## SECTION 6: Accidental release measures

· 6.1 Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel:

Wear protective equipment. Keep unprotected persons away.

Avoid substance contact.

Do not breathe vapors/spray.

Ensure adequate ventilation Use breathing protection against the effects of fumes/dust/aerosol.

• Advice for emergency responders: Protective equipment: see section 8

#### · 6.2 Environmental precautions:

Damp down gases/fumes/haze with water spray jet.

Version number 5 (replaces version 4)

Product name: Polyacrylate Solvent A3

Do not allow product to reach sewage system or water bodies. If material reaches soil inform authorities responsible for such cases. 6.3 Methods and material for containment and cleaning up: Ensure adequate ventilation. Absorb with liquid-binding material (sand, diatomite, universal binders). Dispose of contaminated material as waste according to item 13. 6.4 Reference to other sections See Section 8 for information on personal protection equipment. See Section 13 for information on disposal. 7.1 Precautions for safe handling Open and handle container with care. Prevent formation of aerosols. Protect from heat and direct sunlight. Store container in a well ventilated position.

· 7.3 Specific end use(s) No further relevant information available.

# **SECTION 8: Exposure controls/personal protection**

## 8.1 Control parameters

· Compone	nts with limit	values that require monitoring at the workplace:		
CAS: 67-6	6-3 trichloro	nethane		
WEL (Grea	at Britain)	Long-term value: 9.9 mg/m³, 2 ppm Sk		
IOELV (European Union) Long-term value: 10 mg/m³, 2 ppm Skin				
WEL (Grea	• Regulatory information WEL (Great Britain): EH40/2020 IOELV (European Union): (EU) 2019/1831			
· <b>DNELs</b> Derived No	o Effect Level	(DNEL)		
CAS: 67-6	6-3 trichloro	nethane		
Dermal	DNEL 0.94 n	ng/kg (Worker / long-term /systemic effects)		
Inhalative	Inhalative DNEL 333 mg/m <sup>3</sup> (Worker / acute / systemic effects)			
	2.5 m	g/m³ (Worker / long-term / local effects)		
		(Contd. on page 5)		

Revision: 13.11.2023

# **SECTION 7: Handling and storage**

# Advice on safe handling:

Work only in fume cupboard.

## · Hygiene measures:

Do not inhale gases / fumes / aerosols. Do not get in eyes, on skin, or on clothing. Take off immediately all contaminated clothing. Store protective clothing separately. Wash hands during breaks and at the end of the work. Do not eat, drink or smoke when using this product.

## • 7.2 Conditions for safe storage, including any incompatibilities

Requirements to be met by storerooms and containers: Store in cool location. Photo-sensitive product. Store in brown-glass or stainless steel containers. Unsuitable material for container: plastics Unsuitable material for container: aluminium. · Information about storage in one common storage facility: Store away from oxidising agents. · Further information about storage conditions: Store in a locked cabinet or with access restricted to technical experts or their assistants.

Store in the dark.

Protect from the effects of light.

Protect from humidity and keep away from water.

• Recommended storage temperature: 20°C +/- 5°C

· Oxidising properties:	none	
· Additional information		
· Organic solvents:	100.0 %	
· Molecular formula	CHCI3	

#### **SECTION 10: Stability and reactivity**

· 10.1 Reactivity see section 10.3 · 10.2 Chemical stability Stable at ambient temperature (room temperature). Contains the following stabiliser: CAS 513-35-9: ≥ 0.001% - ≤ 0.015% heat-sensitive sensitivity to light 10.3 Possibility of hazardous reactions Reacts with strong oxidizing agents Reacts with strong alkali Reacts with powdered metals 10.4 Conditions to avoid Strong heating (decomposition) · 10.5 Incompatible materials: rubber various plastics aluminium 10.6 Hazardous decomposition products: Phosgen Hydrogen chloride (HCl) In case of fire: see section 5.

### **SECTION 11: Toxicological information**

#### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

• Acute tox Harmful if Toxic if inh	swallowed	d.		
· LD/LC50 \	· LD/LC50 values that are relevant for classification:			
CAS: 67-66-3 trichloromethane				
Oral	LD50	695 mg/kg (rat) (RTECS)		
Inhalative	LC50/4h	3 mg/l (ATE) (Vapour)		

· Skin corrosion/irritation Causes skin irritation.

· Serious eye damage/irritation Causes serious eye irritation.

· Respiratory or skin sensitisation Based on available data, the classification criteria are not met.

· Germ cell mutagenicity Based on available data, the classification criteria are not met.

· Carcinogenicity Suspected of causing cancer.

· Reproductive toxicity Suspected of damaging the unborn child.

• STOT (specific target organ toxicity) -single exposure Based on available data, the classification criteria are not met.

Version number 5 (replaces version 4)

Revision: 13.11.2023

### Product name: Polyacrylate Solvent A3

Causes d	(Contd. of page cecific target organ toxicity) -repeated exposure
Aspiratio	amage to the kidneys and the liver through prolonged or repeated exposure.
	n hazard Based on available data, the classification criteria are not met.
	ion on likely routes of exposure
The main	routes of absorption of trichloromethane (T.) in the workplace are via the respiratory tract and the skin.
	. is rapidly absorbed into the blood.
In kinetic	studies on humans and laboratory animals, good uptake of T. via intact skin was demonstrated.
	ic study in volunteers, effective absorption via the digestive tract was demonstrated. studies, T. was better absorbed from aqueous solutions than from oily formulations. [GESTIS]
	al toxicological information:
	66-3 trichloromethane
	e: GESTIS)
Main to	xic effects:
	rritant effect on eyes and skin, disruption of the central nervous system (narcotic effect) and cardiac function;
Functio	nal disorders and damage to the liver and kidneys
chronic	: liver damage, also kidney damage in animal experiments and local changes in the nasal mucosa after inhalation
Further	information:
The sw	eet odor of T. can be perceived from around 200 ppm (approx. 1000 mg/m³). In the case of prolonged or repeated
exposu	re in particular, this does not suffice as a warning effect, since toxic effects occur even below this concentration.
11.2 Info	rmation on other hazards
Endocrin	e disrupting properties The product does not contain substances with endocrine disrupting properties.
Other inf	ormation
	stance / mixture should be handled with particular care.
Other dar	ngerous properties can not be excluded.
According	to the information available to us, the chemical, physical and toxicological properties of the substances mentioned in
Chapter 3	3 have not been thoroughly investigated.

• 12.7 Other adverse effects Avoid transfer into the environment.

· Water hazard:

Do not allow product to reach ground water, water bodies or sewage system, even in small quantities.

Version number 5 (replaces version 4)

Revision: 13.11.2023

(Contd. of page 7)

#### Product name: Polyacrylate Solvent A3

Danger to drinking water if even extremely small quantities leak into soil.

## **SECTION 13: Disposal considerations**

#### · 13.1 Waste treatment methods

· Recommendation

Printing date 13.11.2023

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Hand over to disposers of hazardous waste.

European waste catalogue
 14 06 02\* other halogenated solvents and solvent mixtures

· Uncleaned packagings:

• Recommendation: Disposal must be made according to official regulations.
