

Lovibond® Colour Measurement Tintometer® Group

Filtro simples (certificado)

Artigo No: 109970

Conformance filters are assigned a nominal value and the company always endeavours to match this value as closely as possible. On occasion, because of the unique manner of the glass making process, it may not be possible to match the requested values exactly. The values achieved and the performance tolerances expected will, of course, always be reported.

Filtro simples (certificado)

This part number stands for a single filter supplied in other filter sets. Please note that each individual filter has its own part number. Please contact sales@tintometer.com for the correct number for your filter.
