Lovibond[®] Water Testing Tintometer[®] Group

DI 10 Dipslide Incubator

For controlled bacterial growth

In order to compare the results of Dipslides and other microbiological tests such as the Coliform / E-coli Test Kit from week to week, the incubation time and temperature must be the same each time the test is performed. This ensures that bacterial growth is always controlled and consistent. The DI10 incubator is therefore an important and necessary step in the analysis of microbiological activity in water. The Lovibond® DI 10 incubator provides reliable incubation in the field, in the laboratory or even on the road. For incubation of dipslides we recommend the purchase of the dipslide holder. This provides a secure support for 12 dipslides in the DI 10 during the incubation period.

- Robust design
- Holds up to 12 dipslides or 10 quanti-discs
- Excellent temperature stability
 - In-car operation

Part Number: 56B000701

Industry

Chemical Industry | Food and Beverage Industry | Industries Others | Marine Industry | Oil and Gas | Pharmaceutical Industry | Power and Energy

Technical Data

Display	1 x 16 bit Backlit LCD
Power Supply	12 V
	110 V
	240 V
Dimensions	246 x 215 x 162 mm

	Delivery Scope	
_	DI 10	
	Power supply	
—	Power cable set (UK, EU and USA)	
	Cigarette lighter cable & 8 plug-in	
	adapters	
	User manual	

Accessories

Title	Part Num- ber
Power cable set	136300
Power supply, 12 V / 48 W	19803550
Dipslide Holder	56B000801
