Water Safety Kit Basic

Complete test kit for emergency response

Don't wait for solutions in disasters or difficult environments - simply react. With the Lovibond® Water Safety Kit Basic you take everything with you to manage each testing challenge and provide safe potable water. The kit combines microbiological and simple chemical methods of analysis.

Perform microbiological membrane filtration and apply chemical test equipment directly on-site - rapidly & with reliable results.

Its compact design and the optional backpack ensures your mobility in each environment and situation. The Heating and cooling function of the incubator allows you test different sorts of bacteria. Be sure that you don't need any further test kit or test equipment to control the most important parameters you need for safe potable water quality.

- Emergency response kit: Manage each testing challenge
- Portable basic test equipment: Microbiological & chemical analysis in one kit
- Incubator with heating and cooling as standard
- Safe & simple testing according to WHO standards
